					GB > Northern / EU > GB > Northern Ireland YES		

- Yes
- Be aware
- No

¹ PALLETS All wooden packaging materials such as pallets, crates, boxes, cable drums, spools and dunnage must comply with the ISPM 15 guidelines; ISPM 15 stands for the "International Standard for Phytosanitary Measures No 15". This certification, declaring wooden pallets have been heat-treated and are free from pests and fungus, is key to preventing the spread of foreign species from one geographical location to another.
